

Impact Analyst VISTA 2022-2023 Opportunity

Neighborhood Housing Service of Chicago's mission is to create opportunities for affordable homeownership, with a focus on communities in the South and West sides of Chicago. Our theory of change is that sustainable homeownership improves residents' lives and leads to stronger neighborhoods by vesting residents in communities, encouraging investment, reducing crime, stabilizing schools, and promoting racial economic equity. NHS educates potential homeowners, shapes policy, administers grants, addresses blight, and empowers residents. Our work is particularly relevant given the current crises.

NHS of Chicago seeks an outstanding individual for the role of **Impact Analyst**, for a year of service (1/18/2022 to 1/17/2023) through AmeriCorps VISTA, who will help drive a capacity building projects crucial to our mission.

AmeriCorps Vista positions provide a stipend, transportation assistance, and the choice of an education award or end of service stipend.

This is a great opportunity to apply your knowledge and passion in a well-recognized Chicago non-profit organization, make a meaningful difference, and add to your skill set.

As Impact Analyst, you will help prioritize and implement a new framework for demonstrating impact and telling the NHS story.

You will conduct research and analyze and present data on client willingness to share personal information that will inform approaches to requesting feedback. You will help prioritize and implement recommendations for measuring and demonstrating impact, including a client "contract" that involves ongoing engagement and client/community check-ins, focus groups, and multiple impact surveys. You will use visuals to help communicate your findings to NHS of Chicago management and to inform our work - laying the groundwork for telling a story of impact over time.

As you make meaningful contributions and help NHS of Chicago build our capacity to demonstrate impact, you will also develop valuable skills and gain insight and experience in the growing field of impact analysis.

To express interest, please send an email and a resume to Marcy Huttas mhuttas@nhschicago.org no later than Friday Dec 10th.

Formal applications must be submitted to AmeriCorps at <https://my.americorps.gov/mp/listing/viewListing.do?fromSearch=true&id=105094>
