

3C Program Buyer Manual

What is 3C?

3C is a placed-based initiative that brings together residents, community organizations, housing counselors, developers, lenders, and philanthropic partners to **make homeownership more accessible and sustainable** for Chicago residents.

With a current focus on **East Garfield Park** and **Humboldt Park**, 3C supports first-time homebuyers who desire to stay in place or buy a home in a neighborhood they choose.

We convene and support the organizations who work directly with homebuyers. Through partner organizations and other public programs, all 3C participants have access to **free HUD-certified homebuyer education and counseling services** (a required first step for a 3C home purchase).

Additionally, 3C homebuyers may have access to additional offerings, subject to availability and buyer eligibility:

- Affordable new construction homes from 3C developer partners
- Affordable mortgage loan products, including low down payment requirements and no private mortgage insurance (PMI) options
- Down payment and purchase assistance programs

At this time, 3C is a placed-based initiative focused in two pilot areas. 3C's financial offerings (e.g., discounted mortgages, down payment assistance) and new construction homes are available to buyers who are purchasing in East Garfield Park and Humboldt Park. For purchase inquiries outside of East Garfield Park and Humboldt Park, please contact 3C housing counselors to discuss next steps.

New Construction Homes from 3C Developers

Home Features

Our foundational product is an all-electric high performance single family home. At the same time, based on our localized conditions, we are also developing two flat rental owner/rental and a more accessible bungalow home.

Each house is:

- 1,445 SQFT
- 2 Floors
- 3 Bedrooms
- 2 Bathrooms
- 2 Living spaces
- 2 parking spaces and fenced yard

The facade of each home can be customized based on a particular owner's specific taste.

Each home comes equipped with a range of smart appliances and apps that support ease of operating your home. Upon purchase, an Inherent Guide will help with initial set-up:

- Nest Thermostat
- ADT Alarm System
- Nest Smart Doorbell
- Nest Wifi Router
- Nest Wifi Speakers
- Yale X Nest Smart Door Locks
- Nest External Security Cameras
- Nest Smart Home Hub
- Energy Monitoring
- Water Monitoring
- Air Quality Monitoring
- UV Air Filter
- Smart Light Switches

Home Features

We are the redevelopment arm of NHS Chicago, www.nhschicago.org. Our rehab and new construction properties are built to be long lasting, easy to maintain and affordable. NHSRC builds 1-2 Unit "Flex" homes. Flexible because of the opportunity for owner-occupants to generate additional wealth through rental income or live multigenerational under one roof.

Each Flex Home is:

- 1500 to 2100 SQFT
- 3 Bedrooms
- 1.5 Bathrooms
- Fully finished basement
- Off street parking with access from alley

The design can also be expanded to include a fully accessible accessory dwelling unit that can be utilized as a rental, live/workspace or multigenerational living.

Home Features

Our single family homes have a number of windows, allowing for a lot of natural light. There are vaulted ceilings in the living room, dining room, and kitchen. They feature quality contemporary finishes. The exterior of the home will have a mix of both Hardie and stone siding, giving a traditional and contemporary look.

Each house is:

- 1,200 SQFT
- 3 Bedrooms
- 1 Bathrooms
- 2 Living spaces
- 2 parking spaces at the rear with enclosed fence

Each home has a kitchen island with a granite top with an overhang to accommodate seating. The flooring throughout will be luxury vinyl tile, with ceramic tile on the tub walls up to the ceiling.
